

Network-as-a-Service (NaaS)

Mueller NaaS Advanced Metering Infrastructure (AMI) solution helps water utilities improve service levels and realize operational safety and efficiencies, through rich consumption data and remote management. To alleviate connectivity issues and outages, Mueller NaaS AMI also provides a full range of secure connectivity options to maximize wireless coverage across the utility service area. Mueller NaaS operations team works with local connectivity partners and utilities to establish a cost effective solution for your utility.

NaaS allows water utilities to focus on business outcomes, optimize IT processes, and improve customer satisfaction.

Install Meters Anywhere

Utilities can install meters anywhere at any time where the networks are already in place.

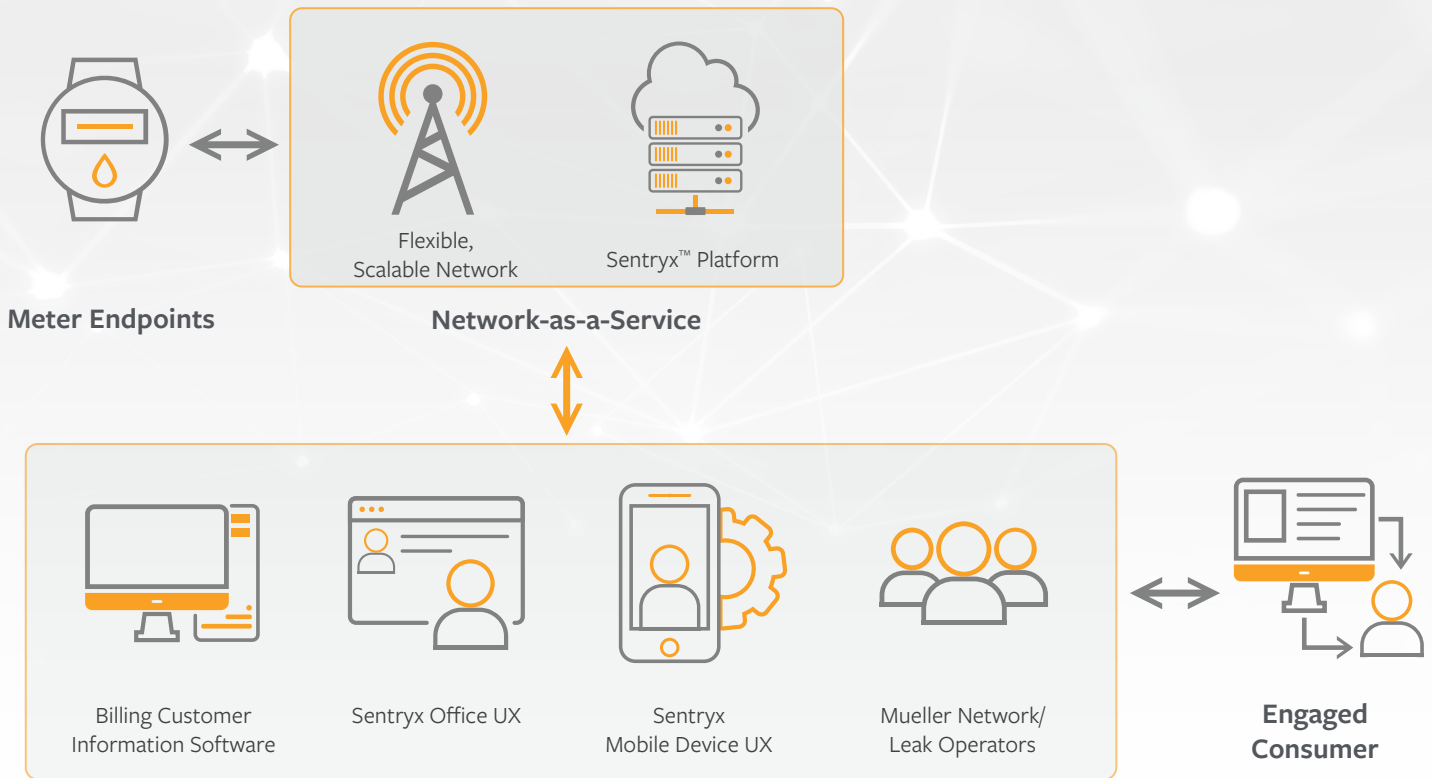

No Infrastructure Headaches

No need for the utility to install, operate, or do any maintenance – Mueller takes care of it all.

Works on Multiple Networks

Connect to existing compatible networks.

Mueller LoRaWAN® and Cellular NaaS Endpoints

Response Time

On-demand reads and remote disconnect commands activate within minutes

Powered By Sentryx™ Water Intelligence Platform

Event management capability quickly alerts staff of consumer issues and data insights e.g.: suspected leak

Connect front-office to field teams with desktop and mobile experiences

Visibility of critical events occurring on your distribution network

Nobody makes NaaS easier than us.
