MI.NET M MINI

THE SIMPLEST AND MOST AFFORDABLE RADIO-READ WATER METER SYSTEM AVAILABLE

Mueller Systems Mi.Net M Mini provides high-end automated meter reading capabilities in an easy-to-use solution. Who should consider the Mi.Net M Mini?

Small Water Utilities can benefit from a simple, low-cost meter-reading solution. Mueller Systems' Mi.Net M Mini provides smaller utilities with the ability to remotely read meters and receive important alarm messages without the need for large infrastructure investment. The Mi.Net M Mini provides an affordable solution for reading large meters in vaults to avoid confined space entry issues and improve customer safety.

Multi-family Residence Owners often install meters for each residence so they can bill occupants for actual water usage rather than charging a flat rate or including fees for water usage in rent. Mi.Net M Mini is the ideal solution for these sub-metering applications. It can read meters up to 1,200 feet from the Mi.Net M Mini receiver in seconds, and it eliminates the need to enter a residence to visually read the meter.

Many Manufactured Home Park Owners sub-meter each lot in their parks. Mi.Net M Mini can remotely read each of these meters in seconds.

All connections are clearly marked for ease of installation. LED lights confirm power, RF reception, and temperature status.

FEATURES

- Read and store data for up to 1,024 Mi.Node M equipped meters

- Remote meter readings and alarms such as leaks, tamper and reverse flow.

- No programming needed

- Mi.Node M equipped meters transmit through meter box covers

- Easily upgradable to a full two-way mobile AMR system that is migratable to AMI

- Downloads meter readings and alarms into Microsoft® Excel

- No FCC license required

- 20-year Mi.Node M warranty

- Up to 1,200 feet range

Microsoft and Excel are trademarks of Microsoft Corporation.

MI.NET M MINI IS SIMPLE

The following components are needed to create your Mi.Net M Mini system

MUELLER WATER METER, REGISTER AND NODE

MI.NODE M INSTALL TOOL

EZEXPORT SOFTWARE

MI.NET M MINI IS AFFORDABLE

A cost-effective solution with high-power results.

● Mi.Net M Mini, including EZExport™ Software
● Mueller water meters, registers equipped with Mi.Node M

ABOUT MUELLER SYSTEMS
Where Intelligence Meets Infrastructure®

Mueller Systems provides Smart Metering solutions to optimize the delivery and use of water and energy. Municipalities that supply water need innovative ways to increase efficiencies, reduce costs, conserve water and energy, and improve customer service. The Mi.Net® Mueller Infrastructure Network for Utilities from Mueller Systems meets that need.

Mueller Systems develops meters and metering systems for the most demanding applications including residential, commercial and fire-line meters, advanced metering infrastructure (AMI) / automated meter reading (AMR) systems and related products. We provide utilities with infrastructure technology that enables them to access the intelligent, actionable data needed to increase efficiencies, reduce costs, conserve water and energy, and improve customer service.

Mueller Systems is part of Mueller Water Products, Inc., a leading manufacturer and marketer of products and services used in the transmission, distribution and measurement of water.
